### **DETAILED ACTION**

1. Claim 13 is objected to under 37 CFR 1.75 as being a duplicate of claim 9. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).
2. Claim 33 is objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only. See MPEP § 608.01(n).

### ***Claim Rejections - 35 USC § 112***

3. Claims 1, 4-5, 8, 11, 27, 29-30 and 32-34 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In Claims 1, 5, 8, 11, 29-30 and 33, the claim language “capable of” is not a positive citation.

In Claim 4, the claim language “liquid crystal phase is a glass” is not clearly defined. The liquid crystal phase should be “in the form of a glass” or “in the glassy state”.

In Claim 27, line 2, the word “any” should be deleted because the claim is depended on claim 1 only.

Art Unit: 1756

In Claim 32, the claim language “combination of a light emitting device as claimed in claim 27 and a Liquid Crystal Display device” does not have an antecedent basis. The claimed device should be rewritten as “The claimed light emitting device as claimed in claim 27, further combined with a liquid crystal display device, said light emitting device providing a source of polarized light for the liquid crystal device”.

In Claim 34, the claim language “the or each alignment layer” is not clearly defined. Also, the claim is depended on the objected claim 33.

***Allowable Subject Matter***

4. Claims 2-3, 6-7, 9-10, 12, 14-26, 28 and 31 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shean C. Wu whose telephone number is 571-272-1393. The examiner can normally be reached on 9:30 AM to 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner’s supervisor, Mark Huff can be reached on 571-272-1385. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
